Professional Summary

Chemical Engineering student (8th semester) at Pontifical Bolivarian University. Passionate about scientific research, multi-objective optimization, and data analytics applied to engineering processes. Experienced in academic leadership, algorithm development in Python, and scientific writing. Eager to contribute to technological innovation, sustainable development, and international collaboration.

Education

B.S. in Chemical Engineering — **2022 – Present**
Pontifical Bolivarian University — Medellín, Colombia (8th semester)

High School Diploma — **2021**
Pontifical Bolivarian University High School — Marinilla, Colombia

Research & Work Experience

Undergraduate Student Researcher — **Oct 2024 – Present**
A+D Automation & Design Research Group / Thermofluids Research Group — Medellín, Colombia

- Active contributor in multi-objective optimization and data analytics projects applied to engineering.
- Modeling and development of computational solutions focused on process efficiency and sustainability.

Academic Advisor — **Jul 2025 – Present**
Tus Trabajos.co — Remote

- Specialized tutoring in mathematics, physics, and applied programming for undergraduate students.

E-commerce Manager — **Jul 2024 – Nov 2024**
Mulchy Group S.A.S — Remote

- Full management of the Amazon US platform and implementation of international digital sales strategies.

Customer Service Representative — **Nov 2022**
Allegretto Express — Marinilla, Colombia

Skills & Academic Background

Academic Tutoring (UPB):

- Organic Chemistry II, Elements of Programming, and Numerical Methods in Python (2023-2 – 2025-1)

Technical Skills & Competencies:

- **Programming & Software:** Python (algorithms, optimization, data analytics), LaTeX, scientific writing.
- **Languages:** Spanish (Native), English (Intermediate / B2 Working Proficiency).
- **Leadership & Honors:** UPB Leader Certification (2021-1), Best High School Graduate Distinction (2021).
